

# Simone Monari

## FULL-STACK DEVELOPER

### / ALL ABOUT ME

I'm Simone, and I am a highly skilled full-stack developer specializing in the MERN software stack. With proficiency in MongoDB, Express.js, React, and Node.js, I possess the necessary expertise to create robust and scalable web applications. Driven by my passion for continuous learning, I am constantly expanding my knowledge and refining my skills to deliver the highest quality service to my clients. I am committed to staying up-to-date with the latest advancements in web development. I am excited to bring my passion, expertise, and dedication to your projects, and I look forward to discussing how I can contribute to your success.
